Subject: "Senate Bill 1090"

Dear "Bill 1090" Committee,

I would like to testify against Bill 1090.

I believe that casino expansion will not have any long term benefits for the state's economy.

Unlike value added manufacturing, casino gambling does not bring in new revenues but relies on money that already exists in the state economy and often to the detriment to existing businesses that will now be required to compete for those same dollars.

Regards,

W. Alex Wolk
